## SUBJECT INDEX

### A

Acids, amino, and their deaminating systems present in human saliva, 68  
 Adamantoblastoma, 484  
 Adenocarcinoma, metastatic, of unknown primary origin, clinically diagnosed osteomyelitis of mandibular condyle found to be, 347  
 Adrenal neuroblastoma, 5  
 Allergic dermatoses of importance to dentist, 201  
 Ameloblastoma, extensive, 1  
 American Academy of Oral Pathology, constitution and bylaws of, 517  
 number, 509-566  
 organization of, 144  
 proceedings of first annual meeting, 509  
 Amino acids and their deaminating systems present in human saliva, 68  
 Ammonia production in oral cavity and use of ammonium salts for control of dental caries, 80  
 Ammonium salts, use of, for control of dental caries, and ammonia production in oral cavity, 80  
 Amputation, root, 301  
     a definitive surgery, 309  
 Anesthesia considerations in oral surgery and dentistry, 379  
     local, in dental surgery, anesthetic-penicillin solutions for, 630  
     premedication by co-medication in, 290  
 Anesthetic-penicillin solutions for local anesthesia in dental surgery, 630  
 Announcement, separation of the Orthodontics section and the Oral Surgery section, 764  
 Antibiotics, use of, in mixed infections, 337  
 Antrum, maxillary, epidermoid carcinoma of, 25  
 Apicoectomy, 301

### B

Bacterial chemotherapy, recent advances in.  
     I. The sulfonamides, 185  
     II. The antibiotics, 193  
 Bacteriologic investigations of oral spirochetal flora in ulcerative stomatitis (Vincent's infection), 666  
 Benign giant cell tumor of mandible, report of case, 614  
 Birth, premature, and diseases of early infancy, enamel damage of systemic origin in, 831  
 Blastomycosis of oral cavity and nose, report of case, 604  
 Bone, extensive epidermoid carcinoma of mandibular gingiva with invasion of, 365  
     fragments and root remnants, retained, healing of extraction wounds in presence of, 263  
 "Bow-back" operation for relief of prognathism, 773  
 Buccal surface of cheek, extensive epithelioma of, report of case, 607

### C

Canal, mandibular, perforation of roots of impacted lower third molars by contents of, report of case, 623  
 Carbohydrate, reduction of oral lactobacillus acidophilus counts by periodic restriction of, 162  
 Carbonate, zinc, oral, gingival, and periodontal pathology induced in rats on a low pantothenic acid diet by toxic doses of, 407  
 Carcinoma, epidermoid, extensive, of mandibular gingiva with invasion of bone and floor of mouth treated by partial jaw resection, insertion of tantalum plate, and prosthesis, 365  
     of maxillary antrum, 25  
     of skin of face, master metal facial cast for swaging lead masks in treatment of, 319  
     secondary, of mandible, 36  
     verrucous, of hard palate, 28  
 Cardiologist and dentist, some common problems shared by, 374  
 Caries, dental, and fluorine, 49  
     use of ammonium salts for control of, and ammonia production in oral cavity, 80  
 Case of noneruption of twelve permanent teeth, surgical and orthodontic treatment in, 585  
     report, radicular cementoma, 843  
     reports, miscellaneous, 351  
 Cases of benign and malignant lesions of oral cavity, from Ellis Fischel State Cancer Hospital, Columbia, Missouri, symposium on eighteen, 1  
 Cast clasps: uses, advantages, and disadvantages, 479  
     master metal facial, for swaging lead masks in treatment of carcinoma of skin of face, 319  
 Cellulitis, chronic gas-forming due to clostridium sporogenes and Vincent's organisms, treated with penicillin, streptomycin, incision and drainage, and chlorophyll irrigations, 337  
 Cementoma, radicular, 842  
 Central hemangioma of mandible, report of case, 611  
     incisor, supernumerary, median anterior maxillary cysts complicated by, 618  
     myxoma of jaw, 532  
     of mandible, 810  
 Cheek, buccal surface of, extensive epithelioma of, report of case, 607  
 Chemotherapy, bacterial, recent advances in.  
     I. The sulfonamides, 185  
     II. The antibiotics, 193  
 Children, hospitalized, in Naples, gingivosis in, 756  
 Chlorophyll irrigations, chronic gas-forming cellulitis treated with, 337

Chondromyxosareoma, metastasis of, to jaw and tooth, 558

Clasps, cast: uses, advantages, and disadvantages, 479

Clinic of Dental Department of Massachusetts General Hospital and Department of Oral Surgery of Harvard School of Dental Medicine, 335

Clinical diagnosis of dermatological lesions of face and oral cavity, 218  
observations concerning noma, 284

Clostridium sporogenes and Vincent's organisms, chronic gas-forming cellulitis due to, 337

Columbia University number, 407-508

Comparative histopathologic changes in experimental deficiencies of various vitamin B components, 740

Compound, composite odontoma, 856

Condyle, mandibular, clinically diagnosed osteomyelitis of, found to be metastatic adenocarcinoma of unknown primary origin, 347  
myxoma of, treated by excision, 344  
tumors of, 344

Counts, reduction of oral lactobacillus acidophilus by periodic restriction of carbohydrate, 162

Crown, full, what is place of, in restorative dentistry, 471

Cyst, globulo-maxillary, report of case, 595  
mandibular, of uncertain origin, report of case, 590

median anterior palatine, report of case, 592

odontogenic, enucleation of, with pathologic fracture and submandibular infection treated by drainage, penicillin therapy and skeletal fixation, 359

Cystadenoma lymphomatous, papillary (Warthin's tumor), 552

Cystic odontoma, report of case, 621

Cysts, dentigerous, treatment of, report of case, 633

median anterior maxillary, complicated by a supernumerary central incisor, 618

**D**

Damage, enamel, of systemic origin in premature birth and diseases of early infancy, 831

Deficiencies, experimental, of various vitamin B components, comparative histopathologic changes in, 740

Deficiency, vitamin A, effects of, on periodontal tissues, 744

Deformity, facial, lipoma causing, 363

Dental and neurological surgery, present status of trigeminal neuralgia in, 388

caries and fluorine, 49  
use of ammonium salts for control of, and ammonia production in oral cavity, 80

dysplasia, examples of, 625

education and practice in England and France, 257

Dental—Cont'd  
medicine number, third annual, 47  
correspondence, 262  
editorial, 47  
report on Third Annual Seminar for the Study and Practice of, 138  
pain, possible methods of controlling, 401  
roots in maxillary sinus, 582  
surgery, anesthetic-penicillin solutions for local anesthesia in, 630

Dentigerous cysts, treatment of, report of case, 633

Dentist and cardiologist, some common problems shared by, 374

Dentistry and medicine, role of nuclear physics in. I. Applications in medicine, 102  
II. Use of radioactive tracers in study of bones and teeth, 109  
and oral surgery, anesthesia considerations in, 379  
hypnosis in, 796  
restorative, what is place of full crown in, 471

Dentists and physicians, fundamentals of nutrition for, 780

Dentition, effects of radium on, 828

Dermatological lesions of face and oral cavity, clinical diagnosis of, 218

Dermatoses, allergic, of importance to dentist, 201

Diabetes, experimental, relation of, to periodontal disease, 703

Diagnosis, clinical, of dermatological lesions of face and oral cavity, 218  
differential, of primary hyperparathyroidism, 126

Diet, low pantothenic acid, oral, gingival, and periodontal pathology induced in rats on, 407  
physical character of, relation to health of periodontal tissues, 687

Disease, gingival, in postwar Italy (1945). II. Gingivosis in hospitalized children in Naples, 756  
maxillary sinus, of dental origin, 765  
periodontal, nature and significance of infection in, 658  
psychosomatic factors in etiology of, 675  
relation of experimental diabetes to, 703

Diseases of early infancy, enamel damage of systemic origin in premature birth and, 831

periodontal, histopathology of, 637

Dogs, estrogen implants in, 723

Drainage, enucleation of odontogenic cyst, with pathologic fracture and submandibular infection treated by, 359

Dysplasia, dental, examples of, 625

**E**

Edentulous or semiedentulous mandible, fractures of, 849

Education and practice, dental, in England and France, 257

Effect of eugenol and oil of cloves on growth of microorganisms, 458  
of radium on dentition, 828

**E**ffect—Cont'd  
of vitamin A deficiency on periodontal tissues, 744  
on penicillin potency of confinement in root canals, 466  
**E**llis Fischel State Cancer Hospital number, III, 1-46  
**E**namel damage of systemic origin in premature birth and diseases of early infancy, 831  
**E**ngland and France, dental education and practice in, 257  
**E**nucleation of odontogenic cyst, with pathologic fracture and submandibular infection treated by drainage, penicillin therapy and skeletal fixation, 359  
**E**pidermoid carcinoma, extensive, of mandibular gingiva with invasion of bone and floor of mouth treated by partial jaw resection, insertion of tantalum plate, and prosthesis, 365  
of maxillary antrum, 25  
**E**pithelioma, extensive, of buccal surface of cheek, report of case, 607  
of oral cavity, report of case, 599  
**E**rythema multiforme exudativum, 326  
**E**strogen implants in dogs, 723  
**E**tiology of pemphigus, 542  
of periodontal disease, psychosomatic factors in, 675  
**E**ugenol and oil of cloves, effect of, on growth of microorganisms, 458  
**E**xamples of dental dysplasia, 625  
**E**xcision, myxoma of mandibular condyle treated by, 344  
ossifying fibroma of mandible treated by, 351, 354  
**E**xodontia and minor oral surgery, 786  
**E**xperimental deficiencies of various vitamin B components, comparative histopathologic changes in, 740  
diabetes, relation of, to periodontal disease, 703  
**E**xtensive epithelioma of buccal surface of cheek, report of case, 607  
**E**xtraction wounds, healing of, in presence of retained root remnants and bone fragments, 263

**F**

**F**ace and oral cavity, clinical diagnosis of dermatological lesions of, 218  
master metal facial cast for swaging lead masks in treatment of carcinoma of skin of, 319  
**F**acial deformity, lipoma causing, 363  
**F**actors modifying head form in man, 145  
psychosomatic, in etiology of periodontal disease, 675  
**F**ibroma, ossifying, of mandible treated by excision, 351, 354  
sublingual, 847  
**F**istula, unilateral parotid swelling with, 357  
**F**loor of mouth and tongue, lesions of, 9  
extensive epidermoid carcinoma of mandibular gingiva with invasion of, 365

**F**lora, oral spirochetal, bacteriologic investigations of, in ulcerative stomatitis (Vincent's infection), 666  
**F**luorine and dental caries, 49  
**F**ractures of edentulous or semiedentulous mandible, 849  
**F**rance and England, dental education and practice in, 257

**G**

**G**ingiva, mandibular, extensive epidermoid carcinoma of, with invasion of bone and floor of mouth treated by partial jaw resection, insertion of tantalum plate, and prosthesis, 365  
**G**ingival disease in postwar Italy (1945). II. Gingivosis in hospitalized children in Naples, 756  
oral, and periodontal pathology induced in rats on a low pantothenic acid diet by toxic doses of zinc carbonate, 407  
**G**ingivosis in hospitalized children in Naples, 756  
**G**land, salivary, tumors of, 30  
**G**lands, parathyroid, normal and pathologic physiology of, 129  
**G**lobulo-maxillary cyst, report of case, 595  
**G**rowth of microorganisms, effect of eugenol and oil of cloves on, 458

**H**

**H**ard palate, verrucous carcinoma of, 28  
**H**ead form in man, factors modifying, 145  
**H**ealing of extraction wounds in presence of retained root remnants and bone fragments, 263  
**H**health of periodontal tissues, relation of physical character of diet to, 687  
**H**emangioma, central, of mandible, report of case, 611  
**H**ereditv and orthodontist—a study in confusion, 154  
**H**istology of myoblastoma, 549  
**H**istopathologic changes, comparative, in experimental deficiencies of various vitamin B components, 740  
**H**istopathology of periodontal diseases, 637  
**H**uman saliva, amino acids and their deaminating systems present in, 68  
**H**yperparathyroidism, 116  
diagnosis, differential, of primary, 126  
pathologic changes in, oral and dental, 120  
physiologic implications of primary, without bone disease, 118  
renal complications in, 125  
roentgenographic findings in, with skeletal disease, 119  
symptoms associated with, 119  
treatment of, 127  
**H**ypnosis in dentistry, 796

**I**

Implants, estrogen, in dogs, 723  
 Incision and drainage, chronic gas-forming cellulitis treated with, 337  
 Incisor, supernumerary central, median anterior maxillary cysts complicated by, 618  
 Infancy, early, enamel damage of systemic origin in premature birth and diseases of, 831  
 Infection, nature and significance of, in periodontal disease, 658  
 Infections, mixed, use of antibiotics in, 337  
 Interdental tissue resection: experimental study of surgical technique which aids in repair of periodontal tissues to original contour and function, 497  
 Intraosseous tumors of maxilla, 815  
 Investigations, bacteriologic, of oral spirochetal flora in ulcerative stomatitis (Vincent's infection), 666  
 Irradiation, teeth and supporting structures in patients treated by, 567  
 Italy, postwar (1945), gingival disease in, 756

**J**

Jaw and tooth, metastasis of chondromyxosarcoma to, 558  
 central myxoma of, 532

**L**

Lactobacillus acidophilus counts, oral, reduction of, by periodic restriction of carbohydrate, 162  
 Lesion, cystic, inflammatory, of mandible, 40  
 Lesions, benign and malignant, of oral cavity from Ellis Fischel State Cancer Hospital, Columbia, Missouri, symposium on eighteen cases of, 1  
 dermatological, of face and oral cavity, clinical diagnosis of, 218  
 of mandible, 36  
 of maxilla, 24  
 of tongue and floor of mouth, 9  
 Lipoma causing facial deformity, 363  
 Local anesthesia in dental surgery, anesthetic penicillin solutions for, 630  
 premedication by co-medication in, 290  
 Lymphadenoma of salivary gland, 552  
 Lymphosarcoma of soft palate, 24

**M**

Man, head form in, factors modifying, 145  
 Mandible, benign giant cell tumor of, report of case, 614  
 central hemangioma of, report of case, 611  
 myxoma of, 810  
 cystic inflammatory lesion of, 40  
 fractures of edentulous or semiedentulous, 849  
 lesions of, 36  
 ossifying fibroma of, treated by excision, 351, 354  
 osteomyelitis of, treated by sequestrectomy, saucerization, and with streptomycin, 340

**Mandible—Cont'd**

peripheral giant-cell tumor of, 42  
 secondary carcinoma of, 36  
 Mandibular canal, perforation of roots of impacted lower third molars by contents of, report of case, 623  
 condyle, clinically diagnosed osteomyelitis of, found to be metastatic adenocarcinoma of unknown primary origin, 347  
 myxoma of, treated by excision, 344  
 tumors of, 344  
 cyst of uncertain origin, report of case, 590
